Imagine the nature of work in future generations. There will be careers not even contemplated today with the many advances in technology and artificial intelligence. In our Future of Work trip we will explore the repurposing of space to design new work areas in downtown Detroit. We will start with a 2 1/2 hour walking tour of the Quicken Loans complex covering multiple buildings. This showcases the renovation of some historic buildings in addition to creatively designed workspaces. In the afternoon we will move on to Tech Town, Detroit's entrepreneurial hub affiliated with Wayne State University.

We'll have a catered lunch (sandwiches and salads), view the creative work areas, and learn about their expansion efforts followed by a panel presentation. The panelists will share their experiences and thoughts about the future of work, artificial intelligence, and local initiatives moving Detroit forward.

Please call Lisa Barton (998-9356) with any questions or concerns about participating. Boarding will begin at 7:45 a.m. to ensure a prompt departure at 8:15 a.m. Activity Level: Participants should be prepared to walk for two and half hours with no rest stops. There will be elevators if participants cannot manage one to two flights of stairs. *No refunds without replacements inside 30 days of trip departure.*
